SEARCH AND RESCUE POLICY

Denali National Park and Preserve recognizes that a certain number of park visitors each year will become ill, injured, or incapacitated in some way. It is the policy of Denali National Park and Preserve to assist those in need, when, in the opinion of the park personnel appraised of the situation, it is necessary, appropriate, within the reasonable skill and technical capability of park personnel, and provides searchers and rescuers with a reasonable margin of safety.

Search and Rescue operations are conducted on a discretionary basis. The level and exigency of the response is determined by field personnel based on their evaluation of the situation. Rescue is not automatic. Denali National Park and Preserve expects park users to exhibit a degree of self-reliance and responsibility for their own safety commensurate with the degree of difficulty of the activities they undertake.

Denali National Park and Preserve encourages self-reliance, preventive education and user preparation. We believe the prudent use of these elements to be the best possible means to safely enjoy the park.
